BAUXITE

Bauxite is a sedimentary rock, consisting mainly of aluminum oxides and hydroxides, as well as iron oxide and various impurities (clay particles). In appearance, bauxites are very diverse. Their color is usually red, brownish brown, less often gray, white, yellow, black. The name comes from the area of Les Baux-de-Provence in the south of France, rich in bauxite deposits. This rock is extracted only in 18 countries of the world.

White bauxite is used in the production of HOSET sanitary ware. Additionally, only polyester resin is added. It is bauxite that gives plumbing products their white color and velvety texture. The material is antibacterial and even used in the medical sphere.

HOSET technology bauxite products

HOSET - HOSET IS A NEW TECHNOLOGY FOR THE PRODUCTION OF SANITARY WARE WITH AN IMPECCABLY MATTE FINISH.

The composition of the new material includes 80% bauxite and 20% polyester resin with additives.

Bauxite is a natural material that can be processed and mixed with resin. Thanks to its properties, bathtubs, washbasins and shower trays are as hard as stone, but have a pleasant matte finish.

Manufacturing according to HOSET technology is matte and homogeneous throughout the entire thickness of the product.

ADVANTAGES OF MIRASOFT PRODUCTS:

Easy care – you only need a sponge (abrasive part) and detergent.

Durability. We give a 10-year warranty on all our products and assure that the product will not lose its original appearance.

Impact resistance. The material is resistant to mechanical pressure.

Maintainability. Shallow scratches are cleaned with the abrasive side of the sponge or sandpaper. Deep chips can be repaired with our repair kit.

Warm surface. The material takes on the temperature of the room.

Complete set	a washbasin, documentation

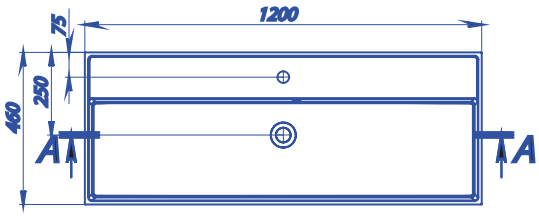
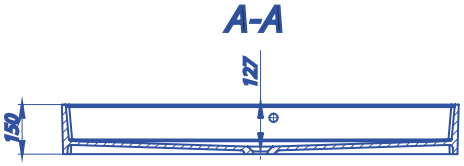
CRASS 1200
HOSET

CRASS 1200

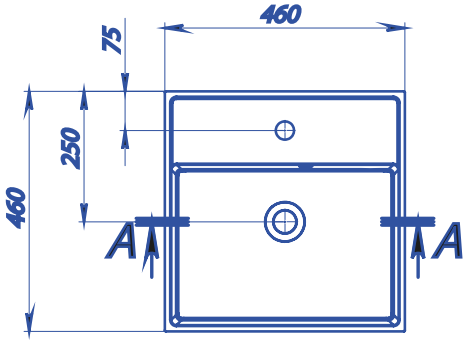
Material	miramarble (cast marble)
Coating	glossy
Dimensions, mm	1200 x 460 x 150
Depth of a bowl, mm	127
Overflow	yes
The type of installation	wall-mounted/countertop
Complete set	a washbasin, overflow, documentation

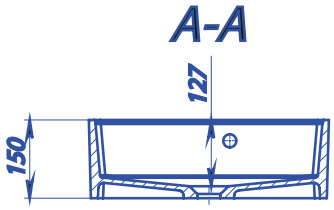


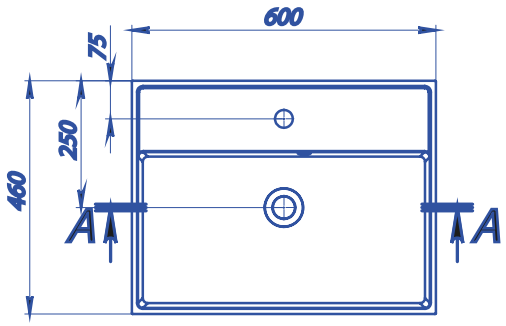


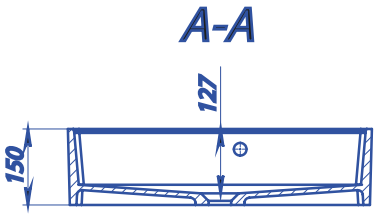
CRASS 460

Material	miramarble (cast marble)
Coating	glossy
Dimensions, mm	460 x 460 x 150
Depth of a bowl, mm	127
Overflow	yes
The type of installation	wall-mounted/countertop
Complete set	a washbasin, overflow, documentation



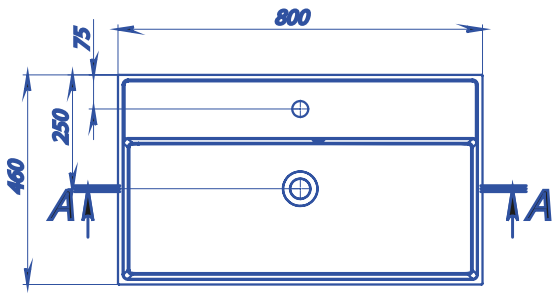


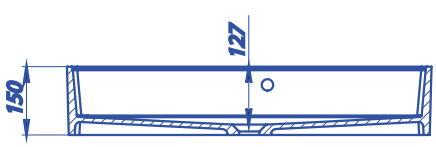




CRASS 600

Material	miramarble (cast marble)
Coating	glossy
Dimensions, mm	600 x 460 x 150
Depth of a bowl, mm	127
Overflow	yes
The type of installation	wall-mounted/countertop
Complete set	a washbasin, overflow, documentation



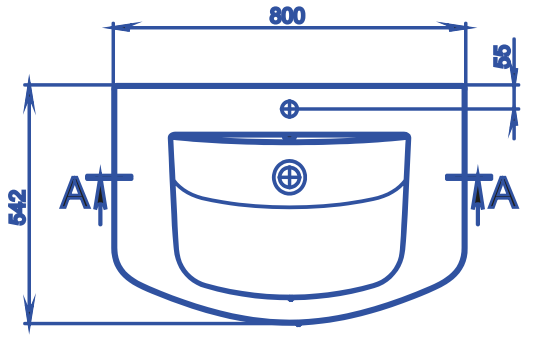


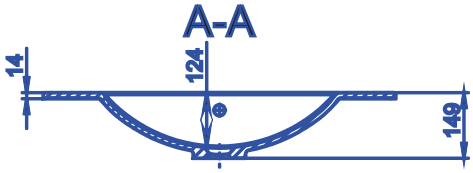
CRASS 800

Material	miramarble (cast marble)
Coating	glossy
Dimensions, mm	800 x 460 x 150
Depth of a bowl, mm	127
Overflow	yes
The type of installation	wall-mounted/countertop
Complete set	a washbasin, overflow, documentation

DEA 800

Material	miramarble (cast marble)
Coating	glossy
Dimensions, mm	800 x 542 x 149
Depth of a bowl, mm	124
Product weight, kg	12,95
Overflow	yes
The type of installation	built-in / countertop
Complete set	a washbasin, overflow, documentation

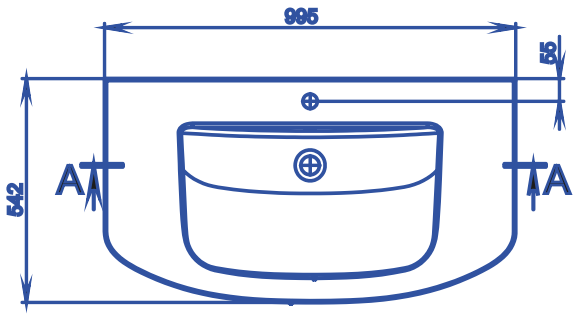


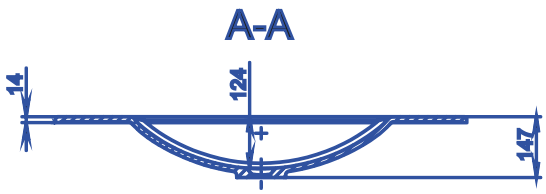


HOSET

DEA 1000

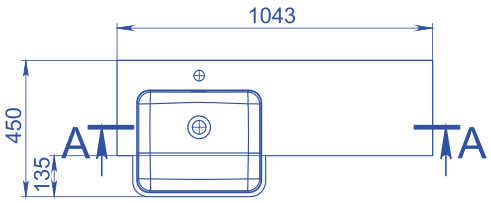
Material	miramarble (cast marble)
Coating	glossy
Dimensions, mm	995x542x149
Depth of a bowl, mm	124
Product weight, kg	16,5
Overflow	yes
The type of installation	built-in / countertop
Complete set	a washbasin, overflow, documentation

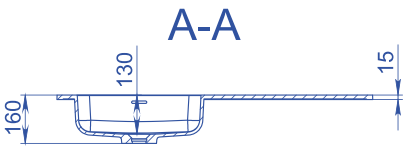




FONTANA

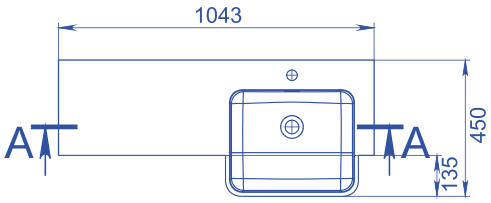
FONTANA L

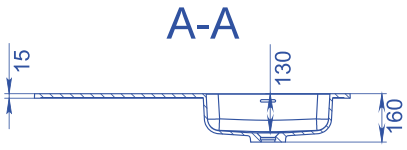




Material	mirasoft
Coating	matte
Dimensions, mm	1043 x 450 x 160
Depth of a bowl, mm	130
Overflow	integrated
The type of installation	countertop
Complete set	a washbasin, documentation

FONTANA R

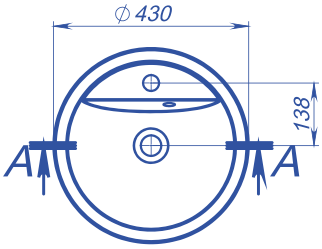




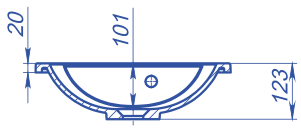
Material	mirasoft
Coating	matte
Dimensions, mm	1043 x 450 x 160
Depth of a bowl, mm	130
Overflow	integrated
The type of installation	countertop
Complete set	a washbasin, documentation

MADISON

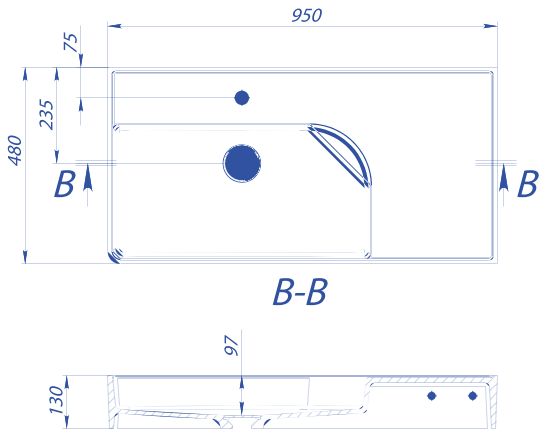
Material	miramarble (cast marble)
Coating	glossy
Dimensions, mm	Ø 450 x 123
Depth of a bowl, mm	101
Product weight, kg	5,0
Overflow	yes
The type of installation	built-in
Complete set	a washbasin, overflow, documentation



A-A



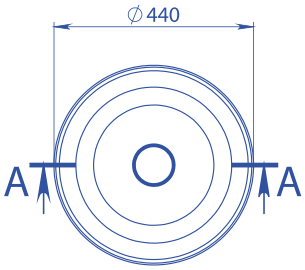
OPTIMUS



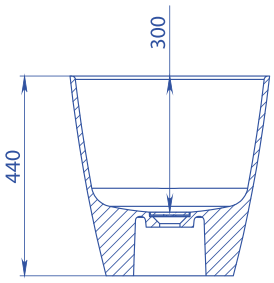
Material	miramarble (cast marble)
Coating	glossy
Dimensions, mm	950 x 480 x 130
Depth of a bowl, mm	97
Overflow	yes
The type of installation	built-in / countertop
Complete set	a washbasin, overflow, documentation

SAN ANDREAS

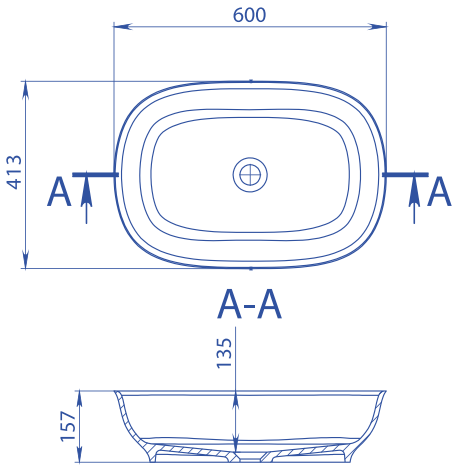
Material	miramarble (cast marble)
Coating	glossy
Dimensions, mm	Ø 450 x 440
Depth of a bowl, mm	300
Product weight, kg	21,5
Overflow	no
The type of installation	countertop
Complete set	a washbasin, decorative overlay, documentation



A-A



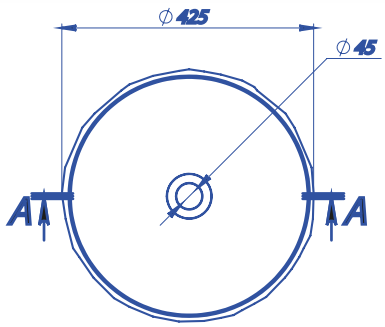
SANTORINI



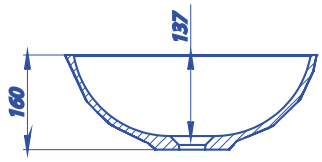
Material	miramarble (cast marble)
Coating	glossy
Dimensions, mm	600 x 413 x 157
Depth of a bowl, mm	135
Product weight, kg	9,55
Overflow	no
The type of installation	countertop
Complete set	a washbasin, documentation

SAPFIRE

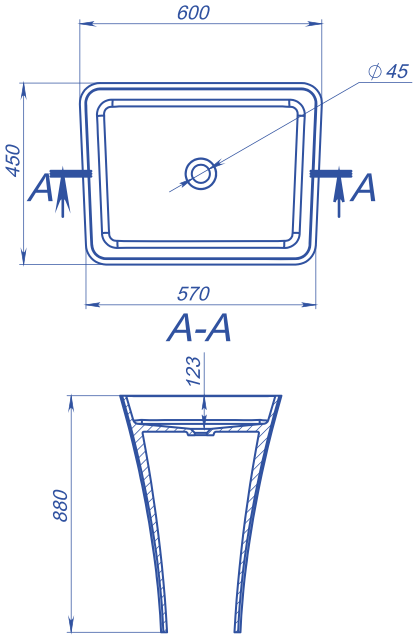
Material	miramarble (cast marble)
Coating	glossy
Dimensions, mm	Ø 425 x 160
Depth of a bowl, mm	137
Overflow	no
The type of installation	countertop
Complete set	a washbasin, documentation



A-A



SUNNY



Material	miramarble (cast marble)
Coating	glossy
